Home Is Where the Start Is

Capdown

This behaviour's got to go,
But still we give them no,
Reason to aspire to something more,
Some people try to hurt you,
'Cos they only learnt that,
You get what you want using war.It's gonna work, you got it all planned out,
Not gonna use it, you just gonna shout,
It's easy money and you got no doubts,
Victimless crime, straight in, straight out.He says no,
Despite threats he's holding on,
He says no,
You know that you ain't got long,
He lets go,
But now you can hear the alarm,
Who'd have thought you'd do so much harm?This behaviour's got to go,
But still we give them no,
Reason to aspire to something more,
Some people try to hurt you,
'Cos they only learnt that,
You get what you want using war.I see the fear now in your eyes,
But it's fear for yourself, not fear for his life,
You don't feel bad about what you've done,
Your twisted idea of twisted fun.How far can,
This go?
Before we admit that...
We Have A Problem And Money Can't Fix It.....This behaviour's got to go,
But still we give them no,
Reason to aspire to something more,
Some people try to hurt you,
'Cos they only learnt that,
You get what you want using war.This Behaviour Has To Go.
