Things I've Seen

Truth Before Treason

Fight or die

Another terror has pulled me from tranquility
What's done is done, but when I close my eyes, it's war
I need someone to distract me from my misery
But nobody will look at me the same

Fight or die

Reaching out, but slowly drifting away
My eyes tell stories that should not even have been made
Time stands still, but no one understands The things I've seen, the things I've done for this nation

(Chorus) I've done the time, I've paid the price
But no one knows the things that I have seen
This hell plays on inside my mind
I can't escape the things that I have seen
A mother dies, her children cry
I can't erase the things that I have seen
And now it's time to say goodbye to sanity

Fight or die

What do you feel when I tell you what I'm going through? I feel resented by the look that's in your eyes
You still don't understand what I've done was all for you
Oh God, I hear it again - please make it stop...

Fight or die

Hate me for who I am, but not for what I have done
I've bled in battle so that you can carry on
War is hell and I'm still living inside it
It won't release me from its grip

(Chorus)
