## **Nothing**

## **Nada Surf**

I didn't do anything today Lazyhead I didn't do anything today Stay in bed I'm finally doing what I said I'd never do I'm doing nothing I'm doing it for you And you will admire the ultimate courage When I throw everything right in the garbage for you I didn't say anything today Nothing said I didn't think anything today **Emptyhead** I'm finally doing what I said I'd never do I'm saying nothing I'm saying it at you And I will get helpers I'm recruiting them now I'll show them nothing to do I will show them how And we will do nothing We'll do it together I don't care when we get through We'll do it forever for you
