Just a Fool

Jasmine Trias

Lalalalala...
I'm just a fool in love with youWhen I first fell in love
He was 10 plus 8
But stood me up on our very first date
Now here I sit
No change for the phone
I'm looking my best, but I'm here all alone
And right now I feel like I am just a fool
Because...Love don't love nobody
It can make you feel like you are crazy
Love don't love nobody
It can make you feel like you're a foolI saw him and her walking hand and hand
So I said to her
You don't know this man
Just look past his charm and his sleeky smile
Don't believe his words
Trust me they're all liesDid you really think I'd let her fall for you?Love don't love nobody
It can make you feel like you are crazy
Love don't love nobody
It can make you feel like you're a foolThe moral of my story is
If he likes to play games
He's full of it
So girls be wise
Take my advice
Don't believe no player's hype
'Cause I made the mistake
For all y'all don't be no foolLove don't love nobody
It can make you feel like you are crazy
Love don't love nobody
It can make you feel like you're a foolLove don't love nobody
It can make you feel like you are crazy
Love don't love nobody
It can make you feel like you're a foolLove don't love nobody
It can make you feel like you are crazy
Love don't love nobody
It can make you feel like you're a foolLalalalala...And remember what I say
Don't be no fool
