

Just a Fool

Jasmine Trias

Lalalalala...

I'm just a fool in love with youWhen I first fell in love

He was 10 plus 8

But stood me up on our very first date

Now here I sit

No change for the phone

I'm looking my best, but I'm here all alone

And right now I feel like I am just a fool

Because...Love don't love nobody

It can make you feel like you are crazy

Love don't love nobody

It can make you feel like you're a foolI saw him and her walking hand and hand

So I said to her

You don't know this man

Just look past his charm and his sleeky smile

Don't believe his words

Trust me they're all liesDid you really think I'd let her fall for you?Love don't love nobody

It can make you feel like you are crazy

Love don't love nobody

It can make you feel like you're a foolThe moral of my story is

If he likes to play games

He's full of it

So girls be wise

Take my advice

Don't believe no player's hype

'Cause I made the mistake

For all y'all don't be no foolLove don't love nobody

It can make you feel like you are crazy

Love don't love nobody

It can make you feel like you're a foolLove don't love nobody

It can make you feel like you are crazy

Love don't love nobody

It can make you feel like you're a foolLove don't love nobody

It can make you feel like you are crazy

Love don't love nobody

It can make you feel like you're a foolLalalalala...And remember what I say

Don't be no fool
