

Drifters (feat. Elizaveta)

Feint

I can hear you far away (I can hear you)
I can see you in the distance
I am living for today (I live for you) I go forth with no resistance
If we drift to the horizon and
If we let it all go
Then will you come with me? (Come with me)
Til' we are free
If we drift to the horizon and
If we let it all go
Then will you come with me? I'm gonna make it somehow
I'm gonna break through the clouds
I will make you mine
I'm gonna sing it out loud
I'm gonna drown in the sun
Will you leave me a sign?
(I can you hear you)
(I can you hear you)
(I live for you)
(I can you hear you)
(I can you hear you)
(I live for you) You're the castle in the sky (I see you)
I'm an island on the ocean
Will we make it through the night? (Been waiting for you)
If we're guided by devotion
If we drift to the horizon and
If we let it all go
Then will you come with me? (Come with me)
Til' we are free
If we drift to the horizon and
If we let it all go
Then will you come with me?
I'm gonna make it somehow
I'm gonna break through the clouds
I will make you mine
I'm gonna sing it out loud
I'm gonna drown in the sun
Will you leave me a sign?
