

Spooky (Night Tripper Mix)

New Order

Once in a while I need a friend
So why won't you let me recover
It's just a moment in your life
But sometimes we divide each other Maybe we could find a time
Eliminate what's on your mind
We'd do everything we could
Our presence in the neighborhood We could break every rule
Anytime we wanted to
Don't be afraid to live this way
Let's defend the things we say I want to be up in the air
I could be anywhere
Tell me I'm wrong, at least till tomorrow
Set me free and I will follow Maybe we could find a time
To elevate what's on your mind
Recreate for me and you
A master plan just for two We could break every rule
Anytime we wanted to
Don't be afraid to live this way
Let's defend the things we say Elevate what's on your mind
Eliminate what's on your mind
