

New Religion

Black Label Society

Take me
Raise me above
Take me
This undying love
What once was
I wish to no longer see
Wings of hatred
Comes at me free

You are the air in which I breathe
You are the blood I drink and bleed
These words beyond forever true
My new religion is you

Forsake me
Its you that I serve
Take me
This undying love

You are the air in which I breathe
You are the blood I drink and bleed
These words beyond forever true
My religion is you
