

# I Just Can't Do This (feat. Meek Mill)

**K. Michelle**

You say you love me  
But we don't make love  
You say, "Nothing's changed"  
Yet I pull and you shove I call your phone several times  
And you don't pick up  
And I'm not just gon' keep blowin' you up (I've had enough of this)  
I'm always pleasing you  
(Boy, you forget)  
That I've got needs too  
But I'm so afraid to walk away from you  
I don't know what you want me to do Said you used to be my sunshine  
In the mist of the rain  
And you used to ease my mind  
When my heart was in pain I was the hand and you were my glove  
Tell me what did you do with the man that I love?  
Used to make me feel that I could fly  
But now all I wanna do is lay down and die Now I take your cursing  
Your drinking and even flirting  
Smile for the camera  
When I'm really hurting But everyday  
You make me feel it's for certain  
And no matter what I do  
It just ain't working (I've had enough of this)  
I'm always pleasing you  
(But you forget)  
That I've got needs too  
I'm just so afraid to walk away from you  
I don't wanna hate you but it's what I must do Said you used to be my sunshine  
In the mist of the rain  
And you used to ease my mind  
When my heart was in pain I was the hand and you were my glove  
Tell me what did you do with the man that I love?  
Used to make me feel that I could fly  
But now all I wanna do is lay down and die
