

# Watch You Walk Away

## The Mallett Brothers Band

We had ourselves a once upon a time  
I rocked the cradle, put the sheets out on the line  
But things like that don't stick around  
That cradle stopped rocking and that line came on down

These late night shifts don't pay  
And you can't make it by on a dollar a day  
So I'm doing me and you a favor  
I'm going to watch you walk away

We had no steaks, we had no chardonnay  
But those hot dogs and beans tasted AOK  
No diamonds, no big screen TV  
But that was alright by me

These late night shifts don't pay  
And you can't make it by on a dollar a day  
So I'm doing me and you a favor  
I'm going to watch you walk away

Send my regards downtown  
Make sure that you can keep both those feet on the ground  
And tell me that you'll be alright  
And I'll tell you that I'll be OK

But these late night shifts don't pay  
And you can't make it by on a dollar a day  
So I'm doing me and you a favor  
I'm going to watch you walk away
