## Vaselines

Feels so good, it must be bad for me  
Feels so good, it must be bad for me  
Feels so good, it must be bad for me  
Let's do it, let's do it again  
You look so right, you must be wrong for me  
You look so right, you must be wrong for me  
You look so right, you must be wrong for me  
Let's do it, let's do it again  
Help me, help me, my resolve is breaking  
I've given up, I'm going down  
I've done too much of all this stuff  
That I was warned, "Do not touch"  
Feels so good, it must be bad for me  
Feels so good, it must be bad for me  
Feels so good, it must be bad for me  
Let's do it, let's do it again  
You look so right, you must be wrong for me  
You look so right, you must be wrong for me  
You look so right, you must be wrong for me  
Let's do it, let's do it again  
Stop me, stop me, please forgive me  
I'm too blind to see the light  
I've been cursed but now it's worse  
I don't know what I did last night  
Save me, save me, temptation's breaking  
I gave in to all you had  
I confess to all the mess  
When darkness fell I was bad  
Feels so good, it must be bad for me  
Feels so good, it must be bad for me  
Feels so good, it must be bad for me  
Let's do it, let's do it again  
You look so right, you must be wrong for me  
You look so right, you must be wrong for me  
You look so right, you must be wrong for me  
Let's do it, let's do it again  
Feels so good, it must be bad for me  
Feels so good, it must be bad for me  
Feels so good, it must be bad for me

Let's do it, let's do it again  
You look so right, you must be wrong for me  
You look so right, you must be wrong for me  
You look so right, you must be wrong for me  
Let's do it, let's do it again
