

# Good for Each Other

J. Holiday

We are good for each other  
Yes, we are good for each other  
We were meant to be together Girl, we met such a long time ago  
But I was too young and scared to let you know  
But I'm standin' right here right now  
Tellin' you I love you and I ain't gonna back down In your life, it has changed but I know  
It was a mistake to let you go  
The situation ain't the same from before  
Girl, can't be nothin' better than you and me forever  
Like woodgrain and leather, we fit good together We are good for each other  
But that ain't all I gotta say, baby  
We were meant to be together  
'Cause we were meant to be together lady We are good for each other  
Yes, we are good for each other  
We were meant to be together Girl, the old sayin' is, 'What you love let it go  
If it comes back then it was yours and if it don't then it won't  
So that's what I did and girl, you came back so  
Now you're mine that feelin' that's [Incomprehensible] Just get ready for my love, get ready for my touch  
'Cause I ain't gone never let nothin' come between us  
Oh baby, come and be my lady  
And we can be Bonnie and Clyde all up in my Mercedes We are good for each other  
But that ain't all I gotta say, baby  
We were meant to be together  
'Cause we were meant to be together lady We are good for each other  
Yes, we are good for each other  
We were meant to be together We were meant to be together  
Like the sun and the moon and flowers in June  
We were meant to be together  
Just like paper and glue, B. B. King and the blues We were meant to be together  
Like Hennessey and Mary Jane, Tammy T and Marvin Gaye  
But it's always been this way, it's gone always stay the same  
We gone be forever like winter coat and sweater, oh, girl We are good for each other  
But that ain't all I gotta say, baby  
We were meant to be together  
But we were meant to be together, baby We are good for each other  
Yes, we are good for each other  
We were meant to be together Now the old sayin' is, 'What you love let it go  
If it comes back then it was yours and if it don't then it won't"  
So that's what I did and girl you came back

So now you're mine [Incomprehensible] yeah, yeah
