KNOCK ME DOWN

[Keri Hilson ft. Kanye & NeYo](#)

Never too soon to be through
Being cool too much too soon
Too much for me, too much for you
You're gonna lose me in timeDon't be afraid to show your friends
That you hurt inside, inside
Pain's part of life don't hide behind your false pride
It's a lie, your lieIf you see me getting mighty
If you see me getting high
Knock me down
I'm not bigger than lifeIf you see me getting mighty
If you see me getting high
Knock me down
I'm not bigger than lifeI'm tired of being untouchable
I'm not above the love
I'm part of you and you're part of me
Why did you go away?Finding what you're looking for
Can end up being, being such a bore
I pray for you 'most every day
My love's with you, now fly awayIf you see me getting mighty
If you see me getting high
Knock me down
I'm not bigger than lifeIf you see me getting mighty
If you see me getting high
Knock me down
I'm not bigger than lifeIf you see me getting mighty
If you see me getting high
Knock me down
I'm not bigger than lifeIf you see me getting mighty
If you see me getting high
Knock me down
I'm not bigger than lifeIf you see me getting mighty
If you see me getting high
Knock me down
I'm not bigger than lifeIf you see me getting mighty
If you see me getting high
Knock me down
I'm not bigger than lifeIf you see me getting mighty
If you see me getting high
Knock me down

I'm not bigger than lifeIf you see me getting mighty
If you see me getting high
Knock me down
I'm not bigger than lifeIt's so lonely
When you don't even know yourself
It's so lonely, it's so lonely
When you don't even know yourself
It's so lonely, it's so lonely
When you don't even know yourself
It's so lonely, it's so lonely
When you don't even know yourself
