

Hero

The Next Step

Let's shut it down
There on the ground
We run this town town
Don't mess around
It's your F.I.R.E burning me
Try not to make a scene
Makes me wanna scream oh whoa
It's your H.E.A.T feeling me off for everyone one to see
In the little space between us Whoa Whoa Whoa Whoa Whoa
I am your hero take you in my arms
I will send away the pain
I am your Savior gonna pull you close as we dance the night away
I am your hero take you in my arms
I will send away the pain
I am your Savior gonna hold you close as we dance the night away
I got my crew
And you got yours
But lets go along long
And when I said it
You were gone
It's your F.I.R.E burning me
Try not to make a scene
Make me wanna scream oh
It's your H.E.A.T feeling me
Off for everyone one to see
In the little space between OH Whoa Whoa Whoa Whoa
I am your hero take you in my arms
I will send away the pain
I am your Savior gonna pull you close as we dance the night away
I am your hero take you in my arms
I will send away the pain
I am your Savior gonna hold you close as we dance the night away
It was something I heard you say
Then you were gone
Like a drop in the ocean
No commotion at all
I am your hero take you in my arms
I will send away the pain
I am your Savior gonna pull you close as we dance the night away

I am your hero take you in my arms
I will send away the pain
I am your Savior gonna hold you close as we dance the night away
