

Feels Like I'm Falling

Eye Empire

Before I hit the ground...Some assistance here is welcome

I could of used it yesterday
and through the years I've stumbled
no longer see the light
(I long to see the light)I can weather the storm
but can I tear down the walls
around me?I wanna feel alive today
I don't wanna waste my life away

No

Feels like I'm falling
I wanna push the fear away
I don't wanna live my life this way

No

Feels like I'm falling
Falling down

Right before I hit the groundMy newfound strength unyeilding

it battles back the pouring rain
The ground beneath me crumbles
No longer see the lightI can weather the storm
but can I tear down the walls
around meI wanna feel alive today
I don't wanna waste my life away

No

Feels like I'm falling
I wanna push the fear away
I don't wanna live my life this way

No

Feels like I'm falling
Falling downI'm not looking for forgiveness
I don't need your sympathy
I've already lost it allI wanna feel alive today
I don't wanna waste my life away

No

Feels like I'm falling
I wanna push the fear away
I don't wanna live my life this way

No

Feels like I'm falling
Falling down
