

# Love Money Party (feat Big Sean)

Miley Cyrus

Money ain't nothing but money  
When you get to the money, ain't nothing but money  
Love ain't nothing but love, when you learn to love, ain't nothing but love  
Party ain't nothing but a party when you party everyday, ain't nothing but a party Love, money, party, love,  
money, party  
Love, money, party, love, money, party  
We want love, money, party If I can't trust then why am I giving my heart  
In exchange for him to love me  
'Cause there ain't much difference  
In a one night stand then one that ain't for me  
Giving too much cause you hate that you love  
Everything that he do and you can't deny you want him  
So what, light a fire underneath this bitch and blow Money ain't nothing, money can't buy you love  
I don't give a damn if he's sitting on a crib  
Money ain't nothing, what about the real and the way you build  
Money get low and the DJ stop and the music slow down and the shit gets blurry Love, money, party  
Money ain't nothing but money  
When you get to the money, ain't nothing but money  
Love ain't nothing but love, when you learn to love, ain't nothing but love  
Party ain't nothing but a party when you party everyday, ain't nothing but a party Love, money, party, love,  
money, party  
Love, money, party, love, money, party  
We want love, money, party I've been through heartbreaks, heartbreaks  
Much for anybody with a human heart to take  
You know it's something that you care to elaborate  
But I've been left with the live bait  
I done messed with the fire, I met a girl on the side  
I done leave it all on the line Money ain't nothing, money can't buy you love  
I don't give a damn if he's sitting on a crib  
Money ain't nothing, what about the real and the way you build  
Money get low and the DJ stop and the music slow down and the shit gets blurry Love, money, party  
Money ain't nothing but money  
When you get to the money, ain't nothing but money  
Love ain't nothing but love, when you learn to love, ain't nothing but love  
Party ain't nothing but a party when you party everyday, ain't nothing but a party Love, money, party, love,  
money, party  
Love, money, party, love, money, party  
We want love, money, party Okay, I walk in, sorta late  
My girl and watch both coordinate

They both got that gorgeous face  
They both shine, they both mine  
Getting green 'cause it's go time  
God damn, I'm so fine  
All the guys oh super model type girls  
Yeah, I'm chilling with those kind  
B.I.G. Sean don, whine Perion  
Detroit, player boy, get my berry on  
On an all night flight to an island  
I'll be gone in the morning  
I don't even need a carry on  
What, this that all night, get dressed up shit  
Red cup, get messed up shit  
Me and Miley, it's just us bitch Money ain't nothing but money  
When you get to the money, ain't nothing but money  
Love ain't nothing but love, when you learn to love, ain't nothing but love  
Party ain't nothing but a party when you party everyday, ain't nothing but a party Love, money, party, love,  
money, party  
Love, money, party, love, money, party  
We want love, money, party
