Healing

Deniece Williams

Now that we have gotten through
One more fall
I can just admit I've got it all
Cause I do
Cause I've got you
We've crossed these battle lines to many times
It passes through the heart
But it never leaves a markCause Your love just keeps on healing me
No matter how I bruise
If I just trust You
Your love just keeps on dealing me
One more clue
One more chance that wasn't there before
In your arms
no pain can harm the way I'm feeling
Lord I know that Your love is healingI've kicked around these lines in my head
But I've never listened to the words that You said
See where its led
Well I know I have it now
Cause You showed me how
And all I had to do
Was just to keep my eyes on YouCause Your love just keeps on healing me
No matter how I bruise
If I just trust You
Your love just keeps on dealing me
One more clue
One more chance that wasn't there before
In your arms
no pain can harm the way I'm feeling
Lord I know that Your love is healing(break)Cause Your love just keeps on healing me
No matter how I bruise
If I just trust You
Your love just keeps on dealing me
One more clue
One more chance that wasn't there before
In your arms
no pain can harm the way I'm feelingLord I know that Your love is healing
