

# I Want the Drugs

## Supersuckers

I want the drugs that'll do me right  
I want the drugs I'll be up all night  
I want the drugs man to put me down  
after the party and we've painted the town

I want the drugs

drugs drugs thats what I said  
into my bloodstream and straight to my head  
bad for my body but good for my soul  
it's good to get a little out of control.

I want the drugs

and when I wake up on the bathroom floor  
I know the "whys" and I know what for  
so lay them out let's mix and match  
it's up in smoke and down the hatch  
if some is good then more is great all right

drugs, yeah whatever you got  
drugs, I'll take a little or i'll take a lot  
drugs, hey when you gonna give em to me  
drugs, for money drugs for free

I want the drugs

---
