

Hate Love

Girlicious

[Nichole] You know I'll be the one when you want me to

I always get the call when she's done with you

Maybe it's time I opened my eyes

Always feel the fool when you lie to me

You seem to make it up so easily

What's worse is that I let you every time

[Natalie] I wish that I could tell you

[Nichole] You only ever let me down, but what I need from you right now

Just try to look me in the eye and baby tell me

Why do you hate love? (hate hate hate love)

Hate love, hate hate hate love

Hate love, hate hate hate love

(hate hate)

I wonder do you hate love? (hate hate hate love)

Hate love, hate hate hate love

Hate love, hate hate hate love

(hate hate)

[Chrystina] You like to glamour me, baby you do it well

I smile when I'm angry but you'll never tell

I hear your lips moving, I don't hear a sound

I think you think I like it when you make me hurt

Sometimes I hate myself because sometimes it works

And I can never bring myself to talk you down

[Natalie] I wish that I could tell you

[Nichole/Natalie] You only ever let me down, but what I need from you right now

Just try to look me in the eye and baby tell me

[Chrystina] Why do you hate love? (hate hate hate love)

Hate love, hate hate hate love

Hate love, hate hate hate love

(hate hate)

I wonder do you hate love? (hate hate hate love)

Hate love, hate hate hate love

Hate love, hate hate hate love

(hate hate)

[Natalie] If I wanted this to be something less than rational

Somewhere lost to in between, I could let myself go

[Nichole] Now I need to make this right

[Chrystina] Get myself on track tonight

[Nichole]Before I do something, I might
[Chrystina]Make you wonder why do I?
[Nichole]Hate love, hate hate hate love
[Chrystina]Hate love, hate hate hate love
[Nichole]Hate love, hate hate hate love
[Chrystina]It's no wonder that I hate love, I hate hate hate love
[Girlicious]Hate love, I hate hate hate love
Hate love, I hate hate hate love
(hate hate)
[Nichole]And now you know why I hate love
(hate love)
