

Was That My Life

Jo Dee Messina

I don't wanna be the one who's old before their time
And lose the wonder that I felt as a child
I can't run this race believing I might lose
There's still so much to see, so much left to do
Yes, I'll fall before I fly
But no one can say I never tried
Oh, we just get one ride around the sun
In this dream of time, it goes so fast
And one day we look back
And we ask, "Was that my life?"
I close my eyes and think how lucky I have been
To hold the ones I love and share my dreams with them
All those sunny days and all those starry skies
Good morning kisses and sweet good nights
I can't tell them enough
Just how much they are loved
Oh, we just get one ride around the sun
In this dream of time, it goes so fast
And one day we look back
And we ask, "Was that my life?"
Oh, we just get one ride around the sun
In this dream of time, it goes so fast
And one day we look back
And we ask, "Was that my life?"
Ooh, was that my life?
Rollin' on by, rollin', rollin', rollin', rollin' on by
Was that my life?
Hmm, was that my life?
