No Return

Solar Factor

Mental vigour's been right on the edge
To a stupefying hole of no return
Now we dance, a holy war is won
But there must be more we got to learn
Don't you know now that I'm here I must go
Into the morning light, illuminate the night
Be the guide on our side
The gnosis
No return, I will go, follow the call of my spirit
No return, I must know all that I never could ask
No return
No, I still can't leave the world in here
Soon I feel that I am gonna get her free
But I've smelled at and I long for more
Take me in, oh, I beg philosophy

Oh, I got to know more now so I must go on
Into the morning light, illuminate the night
Be the guide on our side
The gnosis
No return, I will go, follow the call of my spirit
No return, I must know all that I never could ask
No return
No return, maybe you must pay, many've been in quest for truth
Insanity has swallowed away
No return, I wish you all the best
Go and face the tree of knowledge and be free
No return, I will go, follow the call of my spirit
No return, I must know all that I never could ask
