

Freakquency

USS (Ubiquitous Synergy Seeker)

Full moon come soon
Ethereal girl can't shine without you I'm getting by
By getting high
Learning how to fly again without you I'm not ready to walk away
I'm not ready to walk away Some day
Oh I'm gonna get you back again
Rushing through my head like oxygen
Never gonna let you go And one day
Oh I'm gonna make you understand
Need you in my blood like tryptophan
Always gonna love you so New moon come soon
Aquarian girl I'm lost without you I'm getting by
I'm getting by
Reliving every memory about you Well I'm not ready to walk away
Still not ready to walk away Some day
Oh I'm gonna get you back again
Rushing through my head like oxygen
Never gonna let you go And one day
Oh I'm gonna make you understand
Need you in my blood like tryptophan
Always gonna love you so Oceans of mind
Waves of alignment
Freakquency shift
Primary assignment With love and wonderment
Wonderment and love
It'll budge
If we orchestrate a shove Some day
Oh I'm gonna get you back again
Rushing through my head like oxygen
Never gonna let you go And one day
Oh I'm gonna make you understand
Need you in my blood like tryptophan
Always gonna love you so Always gonna love you so
Always gonna love you so
Always gonna love you so
Always gonna love you so
