

Inside Looking Out

Defiance

[Music: Harrington / Adams / Vander Ende]

[Lyrics: Esquivel / Harrington / Vander Ende / Kaufmann]Inside looking out

Can you believe what you see

The unpleasant sight

For a place with so much greed

Infectious destiny

I find it hard to make my standMade to reality - conformed

society[Chorus:]Inside looking out

Seems so never ending

Inside looking out

Seems so never endingInside looking out

What can you see

Beyond without doubt - What to

believe

What to believe

When all reality lost its mind

What to conceive

Dealing with the people when the

problemsDon't fade away

And you find yourself dreaming

for...

Dreaming for another dayInside looking out

Can you believe what you see

The unpleasant sight

For a place with so much greed

Infectious destiny

I find it hard to make my standI see no way out[Repeat chorus]
