

Lovesick

Camryn

[Verse 1]

I fell for every line on your lips,
only lies
A broken heart in the first degree
I thought we were just fine
should have seen all the signs
they were right in front of me
The way you looked at me
Made it easy to believe
I was blind, but now I see [Chorus]
And I was falling for you
I couldn't help myself
You hypnotize me
I was under your spell
You got me LoveSick
but now baby I can tell its just a game to you
so baby shame on you [Verse 2]

I thought you were the one,
but its all come undone
And now you're begging me to take you back
Can't you see? I've moved on
all those feelings are gone
There's no turning back
The way you looked at me
Made it easy to believe
I was blind, but now I see [Chorus]
And I was falling for you
I couldn't help myself
You hypnotize me
I was under your spell
You got me LoveSick
but now baby I can tell its just a game to you
so baby shame on you
And I was falling for you
I couldn't help myself
You hypnotize me
I was under your spell
You got me LoveSick
but now baby I can tell its just a game to you
so baby shame on you
This was just a game to you
You'd never thought you'd lose
You'd never thought you'd-

This was just a game to you
Now the blame's on you, so shame on you[Chorus]
And I was falling for you
I couldn't help myself
You hypnotize me
I was under your spell
You got me LoveSick
but now baby I can tell its just a game to you
so baby shame on youAnd I was falling for you
I couldn't help myself
You hypnotize me
I was under your spell
You got me LoveSick
but now baby I can tell its just a game to you
so baby shame on youIt was just a game to you
so baby shame on you, shame on you
It was just a game to you
baby shame on you
