

That's My Life

Fatskins

I used to sit and wish for all this stuff before
Now I got it and dont want the shit no more
Never had a girlfriend when I was living poor
So who the hell are these women knocking at my door?Im through with these so called friends of mine
'Cause no one was around when I was doing time
No one ever called or send a dime
None of these fakes drop me a lineSnow will survive this fucked-up game
Ill live to see my enemies bow in shame
'Cause thats my lifeFirst I got the money, then I get the drama
Tired of the hating, be careful of the karma
Then I got the baby, never loved the mamma
Screw them all the haters, I dont need the traumaIts always about me doing for you
What you dont think I got problems too
Never see you when Im broke and need a few
But you always find me when your rent is dueSit back, shut your mouth, I got something to say
Everything I used to do Im gonna change today
Why, you only call me when you need my car
Ive given too much been pushed too farCant figure out whose being real
Screw yall fools, thats the way I feel
'Cause thats my lifeFirst I got the money, then I get the drama
Tired of the hating, be careful of the karma
Then I got the baby, never loved the mamma
Screw them all the haters, I dont need the trauma
