

The Big Time

Souldium

No I dont have the time
To skull fuck your mind
Were just headed for the big time
Assure assure that youre there
Horns in the air
Screaming were headed for the big time
We arrive in limousines
Titty girls scream
You know were headed for the big time
Assure assure that youre there
Horns in the air
Screaming were headed for the big timeRelease set yourself free
Rock shit with me
You know were headed for the big time
Assure sure that youre there
Horns in the air
Screaming were headed for the big time
Yeah were headed for the big time
