

Death from Above

Anthrax

Like the screaming eagle
I'm on the run
I blaze through the sky
I kill for the fun No reason, no warning
Nor shadow be found
Got you in my sights
And I'll shoot you down Jet fighter, jet fighter
Turbo jet engines ignite
Jet fighter, jet fighter
Death will be filling the sky
Jet fighter, jet fighter
An airborne assault and attack
Jet fighter, jet fighter
A cold blooded stab in the back Vengeance is calling on you
And there's nothing that you can do
Brings you the thing you deserve
Death from above Chains of oppression
Will break with my teeth
The false reputation
Will die at your feet So ruthless ambitions
To have no remorse
You looked at the soul
Tied by the soul Jet fighter, jet fighter
Turbo jet engines ignite
Jet fighter, jet fighter
Death will be filling the sky
Jet fighter, jet fighter
An airborne assault and attack
Jet fighter, jet fighter
A cold blooded stab in the back Vengeance is calling on you
And there's nothing that you can do
Brings you the thing you deserve
Death from above Jet fighter, jet fighter
Turbo jet engines ignite
Jet fighter, jet fighter
Death will be filling the sky
Jet fighter, jet fighter
An airborne assault and attack
Jet fighter, jet fighter

A cold blooded stab in the back Vengeance is calling on you
There's nothing that you can do
Brings you the thing you deserve
Death from above
