

It Feels Good To Be Around You (Feat. Air France)

[Yumi Zouma](#)

I watched you from my balcony last month
running through the park
hoping to catch your bus
Seven days ago I saw you headin home
cycling through gnat-swarms
the scents came back with the sun
Twenty minutes ago on the way to the studio
you were on the tram looking fucking top, and you asked:
"are you with air france?"
