Everything Has Changed

DJ Bobo

It's the groove that makes you wonder
I mean the beat and the bass like thunder
I make you sweat
I make you wet
This is my mission that I got to get
That's great
Like boom boom boom
Bring the sound and the noise to the room
Get on the floor now don't be lazy
Get on the floor now lets go crazyPeople in the place let's talk about
So get on the floor and turn it out
Everything that change it goes round'n'round
You lose control when you hear my sound
Everything that change it goes up'n'down
To the rhythm of the night and to the ground
Dance in the house and you won't let go
Like a symphony
In stereo-ere-oEverything has changed since you've been gone forever
All I want is you to be my side
Everything has changed since you've been gone forever
All I want is you to be my side
Feel the heat
I'm burning deep inside and
Feel the beat
Of my heart
Feel the heat
I'm burning deep inside and
Feel the heat
I know that everything has changedPeople everywhere shake their hair
Shake it in the air oh yeah
T's music from my mind
And the bass will let it shine
You got no time to realize my rhyme
The lyrics are fine
What's mine is mine
Let it shine like a sign
Sign of the time when you're feeling finePeople in the place lets talk about
So get on the floor and turn it out
Everything that change it goes round'n'round

You lose control when you hear my sound
Everything that change it goes up'n'down
To the rhythm of the night and to the ground
Dance in the house and you wont let go
Like a symphony
In stereo-ere-o
