Keep Faith

Q Strange

Everybody hurts
Everybody?s broken
But you gotta know
If you ever need me
I will be waiting
I...
Even when your hope is gone
Even when you?re barely holding on
If there?s anything that I?m sure of
I know that we were made for love
So if you start to break
Keep faith
Keep faith
When the days drag on
And you?re barely breathing
Searching for a light
You?ve had all along
Trust me, I?ve seen it
And if I could
Baby, make you believe it
Oh?
Even when your hope is gone
Even when you?re barely holding on
If there?s anything that I?m sure of
I know that we were made for love

So if you start to break
Keep faith
Just let yourself go
Just let yourself go
Just let yourself go
Just let yourself
If there?s anything that I?m sure of
I know that we were made for love
So if you start to break
Oh?
Even when your hope is gone
Even when you?re barely holding on
If there?s anything that I?m sure of

I know that we were made for love
If you start to break
If you start to break
Baby, if you start to break
Keep faith
Oh?
You gotta keep faith
Oh baby
?
You gotta keep faith
Keep faith
