

# Face the Fire

[Dan Fogelberg](#)

I hear the thunder three miles away  
The islands leaking into the bay  
The poison is spreading, the demon is free  
People are running from what they cant even seeFace the fire you cant turn away  
Risk grows greater with each passing day  
Waitings over, the moment has come  
To kill the fire and turn to the sunTheyll take your money and then take your health  
To line their pockets with unequaled wealth  
These men are under the power of gold  
Wont be safe until we shut them down coldFace the fire you cant turn away  
Risk grows greater with each passing day  
Waitings over, the moment has come  
To kill the fire and turn to the sunPeople came to the Capitol Ttown  
One hundred thousand of them laid their hearts down  
They screamed in anger and broadcast their fears  
Just to have them fall on deaf earsFace the fire you cant turn away  
Risk grows greater with each passing day  
Waitings over, the moment has come  
To kill the fire and turn to the sun  
Kill the fire and turn to the sun
