

# Found My Way

Shirley Murdock

You left me here alone  
With his child  
All hope was gone  
I couldn't find my way alone I met you then  
But I doubted you  
Still your strength  
Enchanted me You were a father to my child  
And a man to me  
Now I'm no longer lost  
'Cause you showed me my way I used to be so lost  
In a world of untrue love  
Then you came along and led me home  
Well, at first I doubted you  
And still you brought me through  
And now I've found my way You understand  
All the pain that was caused by  
Another man  
You gave me love and not lust Me and my child  
We loved you so  
But I want you to know  
I'm awed by you And the tender way you do  
All the things you do  
Now I'm no longer lost  
You showed me my way I used to be so lost  
In a world of untrue love  
Then you came along and led me home  
Well, at first I doubted you  
And still you brought me through  
And now I've found my way You showed me my way I used to be so lost  
In a world of untrue love  
Then you came along and led me home  
Well, at first I doubted you  
And still you brought me through  
And now I've found my way I learned to love  
You brought out the fire  
Burning in my soul  
Now I've found myself  
'Cause you showed me  
You showed me the way I used to be so lost

In a world of untrue love  
Then you came along  
Led, led, led, led, led me home  
Then you brought me through  
Now I found my way Then you came along and led me home  
First I doubted you  
Then you brought me through  
And now I've found my way Now I wanna thank the Lord  
'Cause you came into my life  
And now I've found my way
