

Radar

[NJ Taylor](#)

Every day goes by I pretend that I'm fine (I pretend that I'm fine)
Even though deep down I know it's all a lie (I know it's all a lie)
S.O.S. please. Am I coming through? (Am I coming through)
It's like 1, 2, 3. How many times I've tried to reach you (ooh)I'm not coming back
'Cuz by now it's too late to save you
When you drowned your heart
Was it cold as ice? Don't even feel no more
I was a fool
To ever think you
Could really wanna change for the better
So I'm not coming back
'Cuz by now it's too late and you're not evenOn my Radar x4You said you'd save my life. No, no more pain.
(ooh)
Got so caught up in the storm
Oh baby tell me who's to blame (ooh)
You tried to play with my heart (ooh)
Pulling yourself apart
So when the water fades to black and your heart goes cold (ooh)
(oh I told ya)I'm not coming back
'Cuz by now it's too late to save you
When you drowned your heart
Was it cold as ice? Don't even feel no more
I was a fool
To ever think you
Could really wanna change for the better
So I'm not coming back
'Cuz by now it's too late and you're not evenOn my Radar x4Been through the same old storms every time I
couldn't let you go
And every battle sunk our ships and even then we'd never let it show
Screaming drowned out all the pain
Oh no our love just ain't the same
So baby, let me let me take the wheel cuz this time
I'm not looking backAnd you're not even
On my Radar x4
On my Radar x4
