

I Was Right and You Were Wrong

Deacon Blue

I was right and you were wrong girl
Nothing lasts forever
Inside every one of us
There's only so long I believe the longest day girl
The lovely light of may girl
If asked if I could ever leave
I never saw a change But I will
What I say?
What I do? I was right and you were wrong girl
It never seems the same
I heard you on the radio
Your voice was so strange But I will
What I say?
What I do? But I will
What I say?
What I do? But I will
What I say?
What I do? But I will
What I say?
What I do? But I will
What I say?
What I do?
