Weapons

Hudson Taylor

I can't find where you hide,
You wound up tight in your full attire
You don't know why, but you wanna fight
If I could show you the view from the other side
This is the view from the other side.

Put down your weapons
Let's be defenceless
Surrender your love your love your love
No more secrets secrets secrets.

Speak to me,
Won't you let it rise?
It'll cause you pain
It'll make you cry
From the hopeless day to the sleepless night
I will show you the view from the other side
This is the view from the other side.

Put down your weapons
Let's be defenceless
Surrender your love your love your love
No more secrets secrets secrets!
Put down your weapons
Let's be defenceless
Surrender your love your love your love
No more secrets secrets secrets.

This is how it is when it all gets wild
You can hit me hard
Hit me hard as you like
If only you could see it through my own two eyes
You could see the view from the other side,
This is how it is when it all gets wild
You can hit me hard
Hit me hard as you like
If only you could see it through my own two eyes
You could see the view from the other side
This is the view from the other side.

Put down your weapons
Let's be defenceless
Surrender your love your love your love
No more secrets secrets secrets

Put down your weapons
Lets be defenceless
Put down the guns the guns the guns
No more secrets secrets secretsâ€¦
