

# Bitter Pill

Billy Idol

Riding down this road  
Like I've ridden down a million  
I've run thru the epic road  
But I can't miss town  
I laughed at all the signs  
They say speed will kill ya'  
A hit of you to slow me down And I've forgotten  
How to fly  
But I'll remember  
Before I die It's a crooked line I follow  
It's a rocky road I ride  
It's a bitter pill I swallow  
Just to keep you by my side  
Oh my I'm driving without sleep  
There just ain't no tomorrow  
Because misery is always colorblind  
I've taken every remedy for ignorance and sorrow  
Something to cure this wicked mind And I've forgotten  
How to fly  
But I'll remember  
Before I die It's a crooked line I follow  
It's a rocky road I ride  
It's a bitter pill I swallow  
Just to keep you by my side  
Just to keep you satisfied And I've forgotten  
The reason why  
But I'll remember  
Before I die It's a crooked line I follow  
It's a rocky road I ride  
It's a bitter pill I swallow  
Just to keep you by my side  
Just to keep you satisfied It's a crooked line I follow  
It's a rocky road I ride  
It's a bitter pill I swallow  
Just to keep you by my side  
Just to keep you satisfied  
Just to keep you by my side  
Satisfied  
Satisfied

It's a wicked world baby I'm riding down this road  
Like I've ridden down a million  
I've run thru the epic Rome  
But I can't miss town  
I laughed at all the signs  
They say speed will kill ya'  
It took you to slow me down A hit of you to slow me down  
It took of you to slow me down A hit of you to slow me down  
It took of you to slow me down A hit of you to slow me down  
It took you to slow me down, baby A hit of you to slow me down  
It took you to slow me down
