Wave Goodbye To Me

Waylon Jennings

I'm just here to get my things and I'll be leaving
And I've got somebody waitin' just outside
So don't start to cry to me about your hurt and misery
Cause the only thing that's hurtin' is your pride
Wave goodbye to me and I'll be leaving walk me to the door and say so long
No need talking anymore saying things I've heard before
Just wave goodbye to me and I'll be gone gone gone gone
Wave goodbye to me and I'll be gone
[guitar]
Go tell all our friends that I'm a cheater tell 'em how I caused you all this pain
But if they start asking you just why I proved untrue
That might not be so easy to explain
Just wave goodbye to me...
Wave goodbye to me...
Gone gone gone wave goodbye to me and I'll be gone
