

I Mean Business

Bobby Pinson

Nobody thinks you're falling in love
That I'm all you're thinking of
That you're worried that your heart
Will break any minute Oh but you are so-oh free
I'll get up and walk away
I won't stay to see you leave me Darling I mean business
When it comes to you
I put everything I got
Into everything I do Daddy said if its worth doing
It's worth doing right
I wanna be your only man
This ain't my only night Darling I mean business
Each and every day
And when I say I mean business
Baby what I say Darling we must be strong
Have the faith to carry on
True love that stands the test of time Through good and bad, right and wrong
I'll stand beside you all along
Your in good hands, with this heart of mine Darling I mean business
When it comes to you
I put everything I got
Into everything I do Daddy said if its worth doing
It's worth doing right
I wanna be your only man
This ain't my only night Darling I mean business
Each and every day
Yeah when I say I mean business
Baby what I say I'll love you every night
In every way I can
What's beneath this cowboy hat
Is a heart full business man Darling I mean business
When it comes to you
I put everything I got
Into everything I do Daddy said if its worth doing
It's worth doing right
I wanna be your only man
This ain't my only night Darling I mean business
Each and every day
Yeah when I say I mean business

Think what I say I mean business I mean business I mean business I mean business
