Against the Law

Stryper

YeahDay after day
I feel like giving up, yes, I do
I lived your way
Was that good enough? Not for youYou've got to point your finger
You think you know it all
I want you to remember
I don't live for you 'cause I'm against your laws
Let's get busyCan you hear me?
I've just got to say one thing more
And I'll say it clearly
Stay out of my way, that's for sureYou've got to point your finger
You think you know it all
I want you to remember
I don't live for you 'cause I'm against your laws
No, no, noOo, we've still got the fire
Burning in our souls
But we're just rockin' harder
To make our music rollYou still do point your finger
You think you know it all
We want you to remember
We don't live for you 'cause we're against your laws
Ohh
