

# The Pestilence of Saints

## Suicidal Angels

Spending your life in agony

Hoping for immortality

Spending your life in misery

Expecting the final judgementHonoring you god in church

Pretending to be moral

Respecting his disciples

Afraid to act on instinctAnd when the time has come

Amazed you realize

No heaven lies ahead

Demise of false beliefs

Abysmal chaos reigning

Millions plunge inside

Naively led by foolishness

Fading wisdom's light[Chorus:]

The Pestilence of Saints

Spreading the disease

The Pestilence of Saints

Souls are under SiegeThey burn your soul

You live a lie

Afraid to die

Just doing as they pleaseChristianity must come to an end

To free ourselves from fear

Jesus and Saints must face our rage

Their holocaust draws near

[Chorus]

The Pestilence of Saints

Corrupting lives, delivering hate

The Pestilence of Saints

A tombstone will now seal your fate[Chorus]
