

Giving It All To You

Liz Phair

They can say what they want
But I don't hear a thing 'cause
They can't read my thoughts
Or the secrets between us
All of this time you where a part of me
Shining like a star in my galaxy And I reach out trusting you there
It's like walkin' on a high wire into thin air
And I'm waking up to the dream
It's like bouncing so high on a trampoline And I know that there's one thing
Between me and nothing
Baby, you are that something that pulls me through
So I'm givin' it all to you, givin' it all to you Could it be you and me
Can't stop thinking about
All of the crazy possibilities
I don't wanna keep my feelings locked inside
Every time I see you, you just blow my mind And I reach out trusting you there
It's like walking on a high wire into thin air
And I'm waking up to the dream
It's like bouncing so high on a trampoline And I know that there's one thing
Between me and nothing
Baby, you are that something that pulls me through
So I'm givin' it all to you, I'm givin' it Others have tried to get to me
But I see through them eventually
'Cause you're the only one that I wanna be with
I'm givin' it all to you, I'm givin' it all
Every time I see you all my systems align
You explode on my just like a meteorite And I reach out trusting you there
It's like walkin' on a high wire into thin air
And I'm waking up to the dream
It's like bouncing so high on a trampoline And I know that there's one thing
Between me and nothing
Baby, you are that something that pulls me through
So I'm givin' it all to you I know that there's one thing
I know that there's one thing
Baby, you are that something that pulls me through
So I'm givin' it all to you, givin' it all to you Could it be you and me
Can't stop thinking about
All of the crazy possibilities
