

# Favourite Friend

## Snow Patrol

You're my favorite friend  
And I adore you  
Love you to the end  
No one heard a word you say  
You're my favorite friend  
We rule the world together  
With out secret codes  
And plans we can't remember  
From now on, must be strong  
My favorite friend  
You're my favorite friend  
When I need you  
And when I don't as well  
Of course you miss me being around  
You're my favorite friend  
But I'm older now  
I can't pretend  
I can't see you anymore
