

Let the Night Fall

Dragonette

I'm pretty deep, sinking in a shallow world
Scotch and sun, given a lesson learned
Stupid phone, friends sits in the afternoon
Riding bikes through the docs from the avenue
Smoking some gun, we get little beats
Sunshine bursts, how's your cute cousin?
Yeah, I still do him up?
What time's he anyways?(x2)
Yeah, we step it up when the sun goes down
Let the night fall, let the night fall
No matter what, we're not stopping now
Let the night fall!
