

# Desire

## The Cairos

Intro

She only speaks in tongues  
He doesn't understand at all  
He wants her like a drug  
But she just wants to have some fun  
High up on the hill  
Looking down upon the world  
Hurry take my hand  
And we stood and they watched them all explode  
When it all goes wrong  
Show me you'd come back to save me  
When it all goes wrong  
Show me you'd come back to save me  
BREAK  
When it all goes wrong  
Show me you'd come back to save me  
When it all goes wrong  
Show me you'd come back to save me
