

Lovit

Marian Hill

Suit black as ink
I bet I know your drink
everything you pray for, everything you play for
Baby turn around
Mind if I sit down
everything you pray for, everything you play for me
I la la la la love it
I la la la la love it
I la la la la love it, love it, love it love
You got a sexy sound
you want another round
I like the way you play boy
Tell me why you play boy
Does it make you feel
Like nothing else is real
I like the way you play boy
Show me why you play boy
I la la la la love it
I la la la la love it
I la la la la love it, love it, love it love
I la la la la love it
I la la la la love it
I la la la la love it, love it, love it love
I la la la la love it
I la la la la love it, love it, love it love
