

Is This How Love Begins

Alabama

Gentle conversation
Walking hand in hand
Sunset on the water
Footsteps in the sand
Now our hearts beat to the rhythm
To the waves that are rolling in
Oh I wonder is this how love begins

Day turns to night
And there's music in the air
The candlelight
Casts a glow around everywhere
A touch of your body
Your fingers on my skin
Oh I wonder is this how love begins
Oh is this how love begins

I've been lonely for so long
Like a man stranded in the rain
If someone did say I didn't love tonight
I'd have told that they were insane
Insane

Well can it be real
Is this happening to me
Is that the look of love
In your eyes I see
Is my waiting over
Is it my chance to win
Oh I wonder is this how love begins
Oh is this how love begins
Oh is this how love begins
