I'm With Her

Rhett Miller

This is a girl on a different planet
In a constellation faraway
We are in love and you can't deny
I'm with her
Sha la la la
Sha la la la
I'm with her
Sha la la la
Livin' alone
Livin' all alone in a black hole I call Hollywood
Looking for love, that I could not find
I had a dream that she would orbit around me
Her heavenly body hovering
We were in love and I closed my eyes
Now I'm with her
Sha la la la
Sha la la la
I'm with her
Sha la la la
I was underground
I found a whole new world to put my troubles in
You lived miles above the earth
Until you came down to bring me home again
Sha la la la
Sha la la la
I'm with her
Sha la la la
We will be wed and we will procreate
And we will examine life on another plane
And we are in love with the big blue sky
I'm with her
Sha la la la
Sha la la la
I'm with her
Sha la la la
I'm with her
Sha la la la
Sha la la la
I'm with her

Sha la la la
