

# Battle In Me

## Garbage

Look at you  
An accident of drinking  
What a mess  
A train wreck of lipstick  
What a joke  
Well do you hear me laughin'?  
Get outta my face  
Before I lose my patience  
Oh me and you  
Let's cut this party  
Little boy  
It takes a lot to shake me (oh shake it)  
It's the battle in me  
It's the battle in you  
It's the battle in me  
It's the battle in you  
It's a bloody war  
Of attrition  
Let's see which one of us  
Is gonna last tonight  
'Cause I have all  
of my whits about me  
and I'll be damned  
if I'm done  
Why rob the place?  
Why won't the room stop spinning?  
Oh make it hard  
  
Want something to happen  
So make it happen  
It's the battle in me  
It's the battle in you  
It's the battle in me  
It's the battle in you  
Let's take a torch  
to the past and the future  
And let's make out  
I won't tell your girlfriend  
See how it feels

With the passion burning  
We'll be damned  
When we're done.  
Shake it, shake it  
Oh shake it up  
Shake it, shake it  
Oh shake it up  
Shake it, shake it  
Oh shake it up  
'Cause it's the battle in you (it's the battle in me)  
'Cause it's the battle in you (it's the battle in me)  
Shake it, shake it  
Oh shake it up  
Shake it, shake it  
Oh shake it up  
Shake it, shake it  
Oh shake it up
