Blood Music

Bison B.C.

There was spiders on the flowers
In the corner of the garden
All unitedly forever
All the doubted for the moment
It's the song that I'm thinking of
It was a song called blood
Yes it was
There was spiders on the flowers
In the corner of the garden
yeah the night will live forever
I'm just happy for the moment
All unitedly forever
All the doubted for the moment
All unitedly forever

All the doubted for the moment
It's the song that I'm thinking of
It was a song called blood
Yes it was
It's the song that I'm thinking of
It was a song called blood
Yes it was
It's the song that I'm thinking of
It was a song called
blood [x7]
[x9]It was a song called blood
Yes it was
