

Islands

Shakira

I don't have to leave anymore
What I have is right here
Spend my nights and days before
Searching the world for what's right here Underneath and unexplored
Islands and cities I have looked
Here I saw
Something I couldn't overlook I am yours now
So now I don't ever have to leave
I've been found out
So now I'll never explore
See what I've done
That bridge is on fire
Go back to where I've been
I'm froze by desire
No need to leave Where would I be
If this were to go under
It's a risk I'd take
I'm froze by desire
As if a choice I'd make? I am yours now
So now I don't ever have to leave
I've been found out
So now I'll never explore
I am yours now, I am yours now
So now I don't ever have to leave
I've been found out, I've been found out
So now I'll never explore See what I've done
